ENVIRONMENTAL ISSUES

We are willing to minimized the environmental hazards by waste management and recycling and pollution reduction principles.

3PBITUMEN

Profile

As an independent private manufacturer specialized in bitumen industry , petro palteh Persian was established and began to build its own bitumen producing plant for providing qualified product.

We enjoy up-to-date standard systems and utilize modern technology for constructing our plant and our facilities .

We are committed not only to provide the best quality of bitumen but also to contribute in development of road and construction projects for countries around the world.

Our company's general director has been fussy about employing our technical staff and workers in order to have the best people to have a prominent team work , therefore , our customers will be certain about all related issues from the very primary step of their communication with our company that is ordering to the final step which is having the best qualified product.

BITUMEN FACTORY

Quality and Staff

The entire line of bitumen production is under the supervision of experienced and professionally skilled staff and the quality of our product is under the severe control of our Q.C department based on the results of daily laboratory tests .

Production Capacity

Petro Patleh Parsian is able to produce 1000 tons of bitumen per day in different grades in accordance with different final usages in different zones .

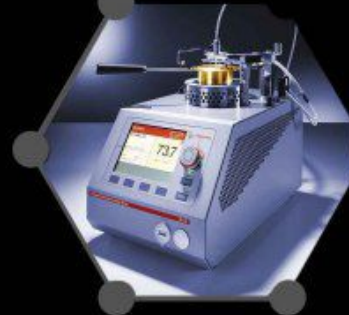

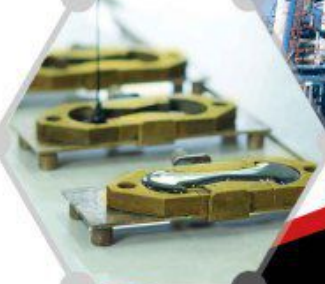

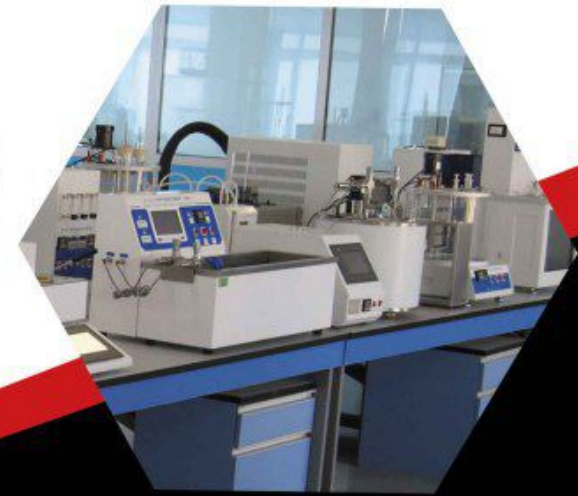

BITUMEN LABORATORY

R & D DEPARTMENT

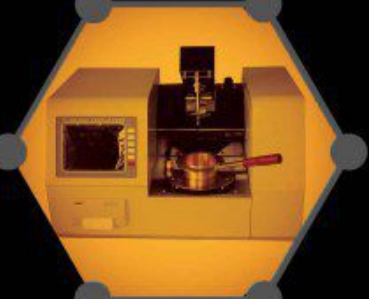

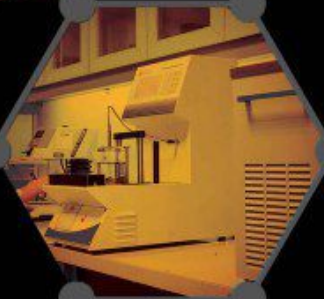

One of our company's general director's major concerns is having a prominent unique R&D department in order to be always up to date and provide new products based on new technological research .

STANDARDS AND TESTS

We are committed to follow all international standards.

We are determined to test out product in our high tech equipped laboratory using the latest technology. Our bitumen is monitored closely during production line to be completely qualified.

3P BITUMEN

BITUMEN

PACKAGING

Petro Patleh Parsian Company produces different grades of bitumen using state of art technology in various kinds of packaging systems according to its customers order- in balk , new drum .

BITUMEN

DRUMMED & POLY CUBE

We are using also a new method of packaging called "poly cube" which is our unique merit in comparison with other bitumen producers.
